1. The Importance of City Reputation

Places are competing for Attention

Nations

Regions

Cities

CITY OF MELBOURNE

I amsterdam®

DENVER
THE MILE HIGH CITY

Why is **Place Reputation** important?

As in the case of companies, **countries and cities also have their own reputation** which has an impact their performance.

Places with a good reputation
welcome more **tourists**

Places with a good reputation
attract **FDI**

Places with a good reputation
improve their **public diplomacy**

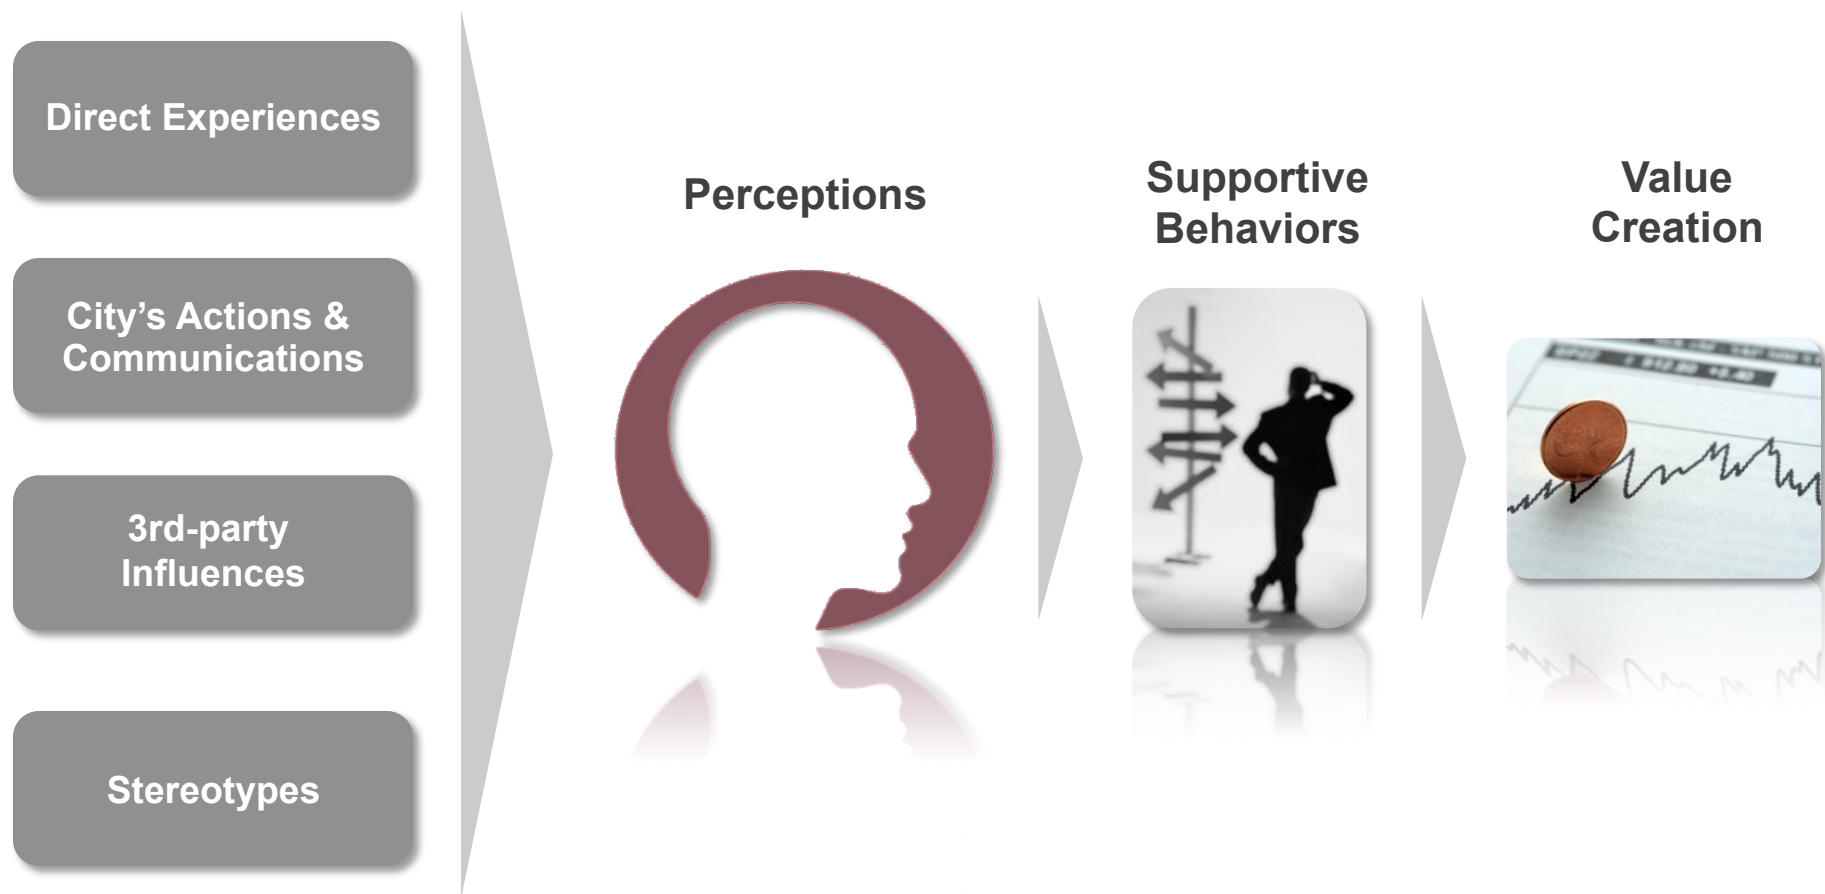

Places with a good reputation
increase **exports**

Places with a good reputation attract
foreign knowledge & talent

The **Reputation Economy** applied to Place Reputation

2. City RepTrak® Methodology

The **Key Indicator** of Reputation

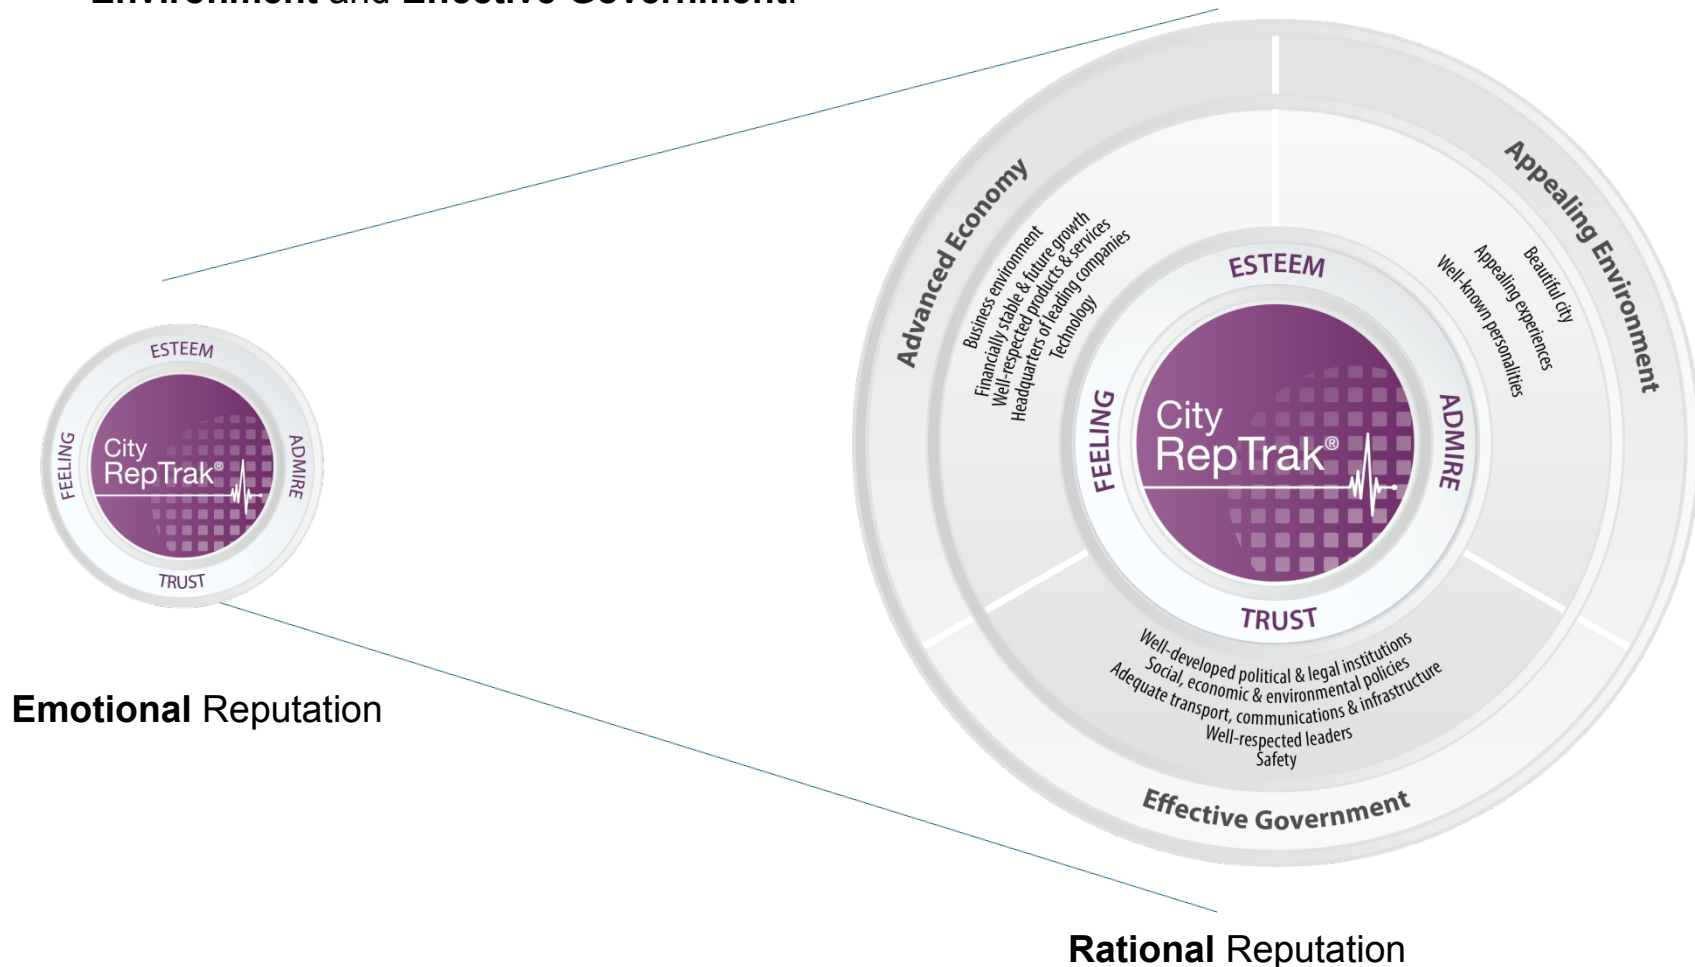

Reputation Institute has been measuring reputations rigorously since 1999. Our approach is based on a simplified and standardized model for measuring reputations internationally.

The **City RepTrak® Pulse**, the beating heart of the model, is the degree to which people trust, admire, respect and have a good feeling for a place, or their emotional bond to the city.

City RepTrak® Model: from Emotional to Rational

Underlying the Pulse score are three dimensions that influence perceptions of a city and its reputation, or the rational bond between stakeholder and city. It is the importance of these 3 dimensions which drive city reputation and stakeholder support, and they include **Advanced Economy**, **Appealing Environment** and **Effective Government**.

City RepTrak® Model: City Reputation Attributes

City RepTrak® is a standardized scorecard that measures perceptions of cities based on key performance indicators designed to assess the relative appeal of the city to respondents on **13 characteristics** organized into 3 dimensions.

Advanced Economy

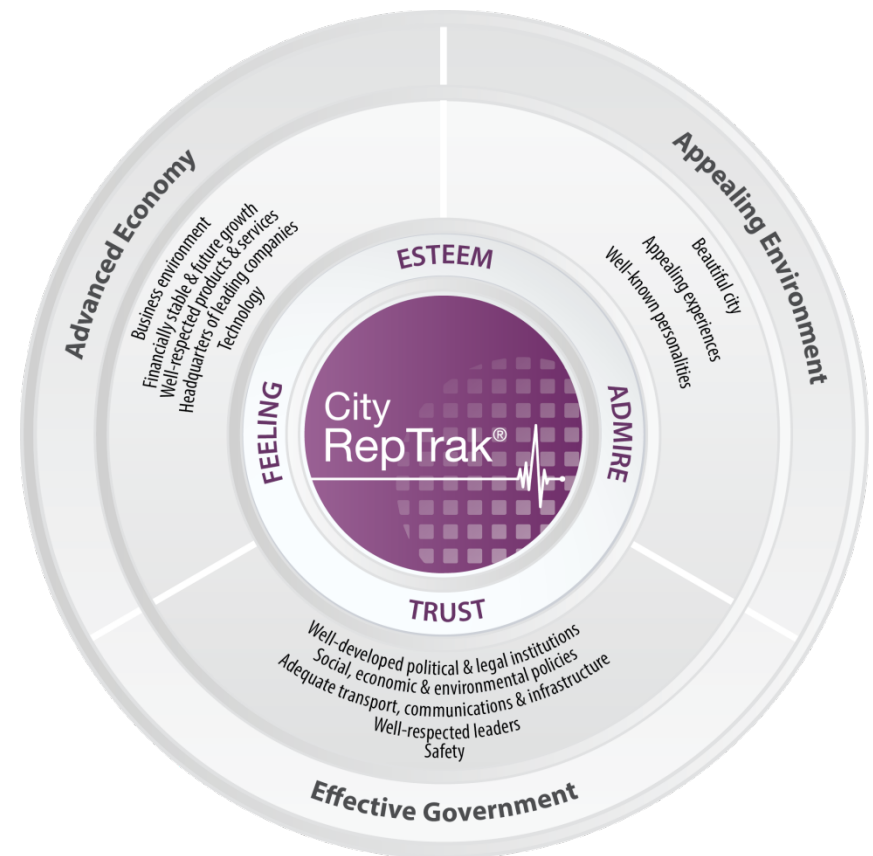

- Produces many unique and well-respected products and services
- Is the headquarters location of many leading companies
- Is technologically advanced
- Is financially stable and has great potential for future growth
- Offers a favorable environment for doing business

Appealing Environment

- Is a beautiful city
- Offers a wide range of appealing experiences, including food, sport, architecture, and entertainment
- Is home to many well-known artists, scientists, inventors, writers, athletes, and politicians

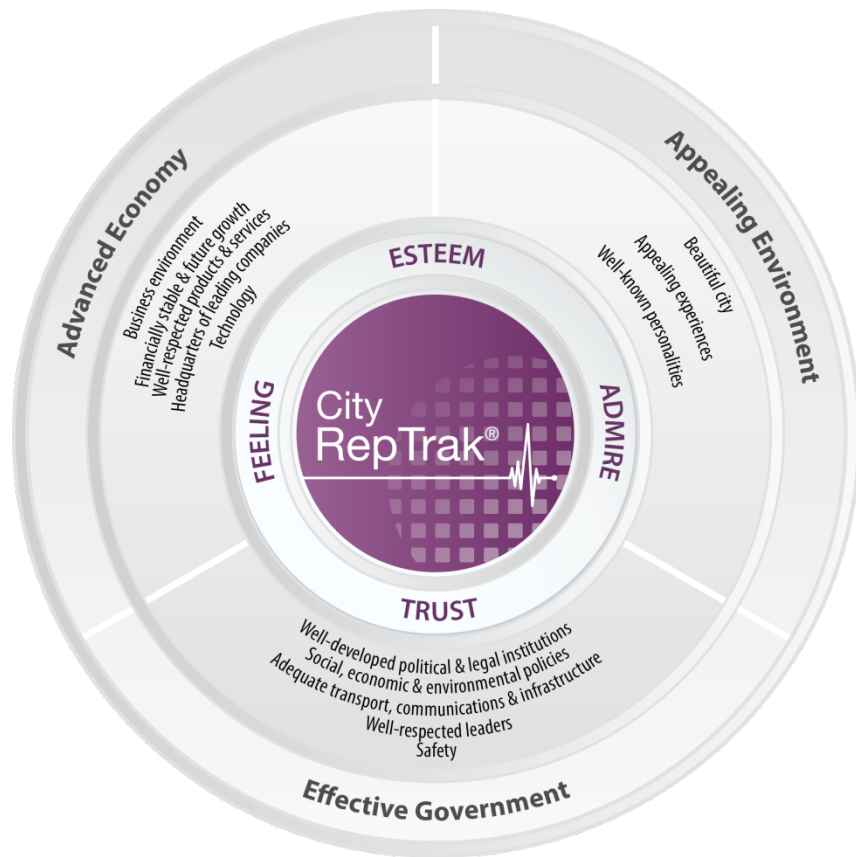

Effective Government

- Offers a safe environment for visitors and residents
- Has a well-developed structure of political and legal institutions
- Follows progressive social, economic, and environmental policies
- Has an adequate infrastructure of transportation, communications, and public institutions
- Is run by well-respected leaders

City RepTrak® Model: Reputation & Value Creation

Having a strong reputation **improves support**. An increasingly globalized world with intensified competition makes city reputations matter more than ever. Attracting **FDI, tourists, highly-skilled workers** and being able to **sell the products of the city abroad** are facilitated by having a strong city reputation. This model shows the correlation between supportive behaviors and external reputation overall for 2013.

I would recommend **visiting** the city

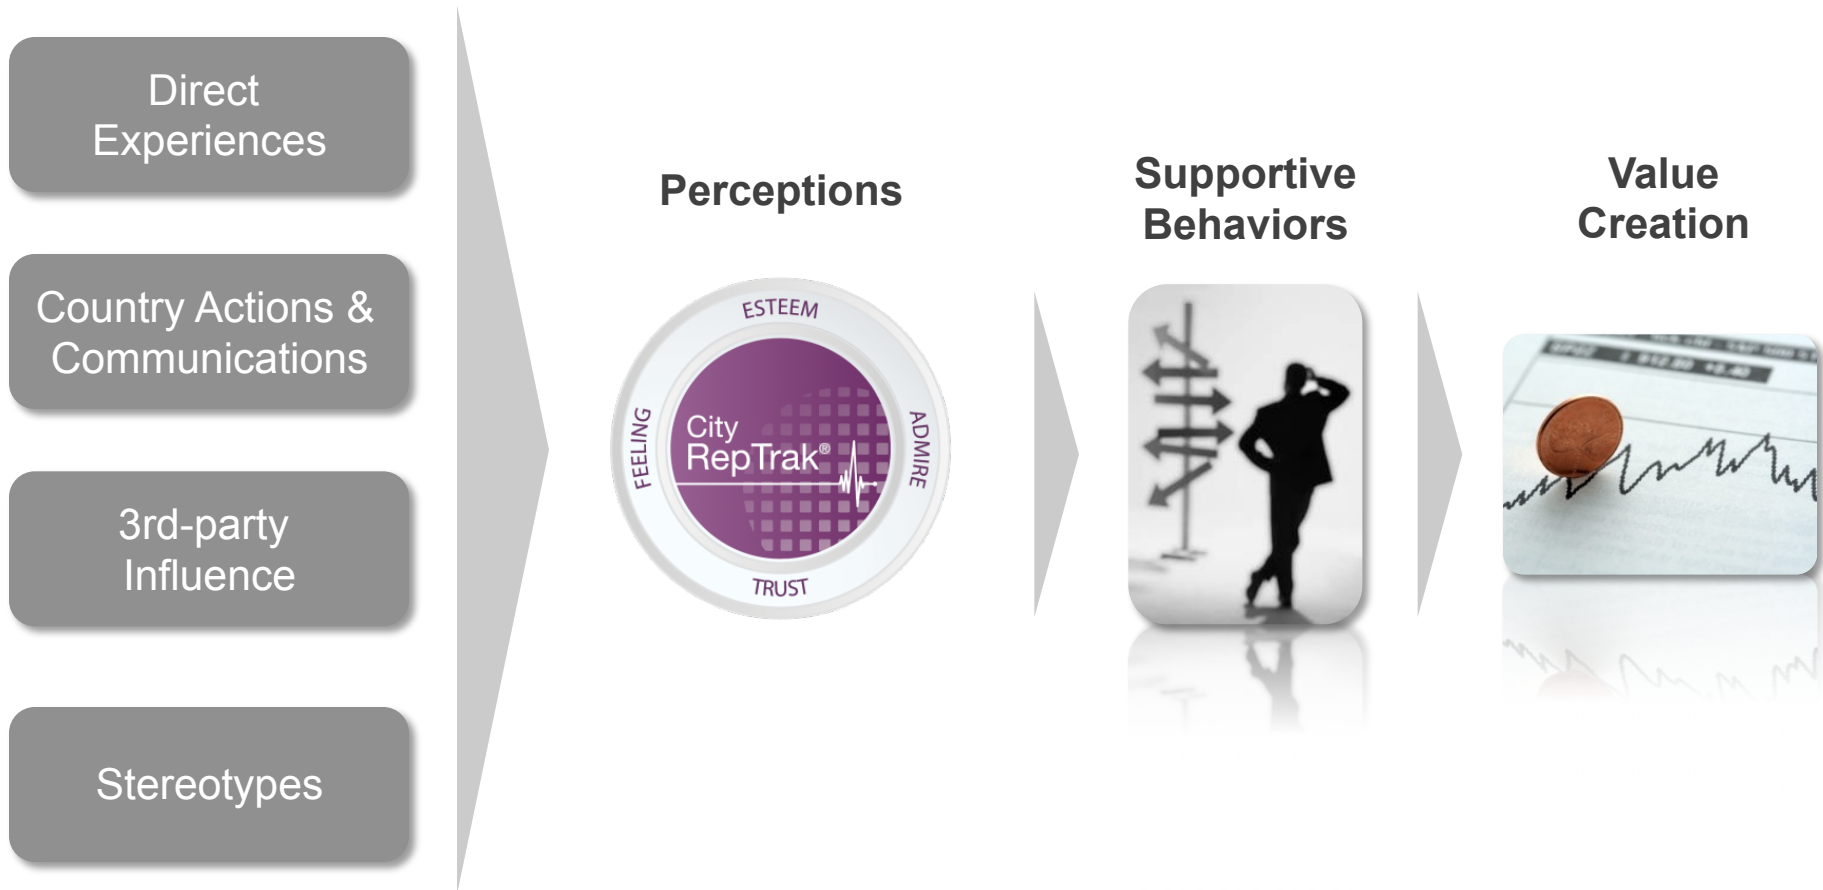

I would recommend **living** in the city

I would recommend **working** in the city

I would recommend **investing** in the city

I would recommend **buying** products/services originating from the city

Analysis of Economic Implications: the Reputation Economy

About the Study

2014 City RepTrak® Study Overview

Stakeholder Group (Target): G8 general public (only people who were “somewhat” or “very” familiar).

City Selection:

- Largest populations
- Largest gross domestic products or GDP
- Cities which enjoy the highest amount of tourism

Data Collection Method : CAWI (online interviews).

Data Collection Period: From January to February 2014.

Sample: Over 19.000 consumers from G8 countries rating the 100 cities included in the study.
